

A Centena Group Company

The world admires our maritime service excellence

Have an edge over integrated monitoring and control systems.

37 years ago, Maritronics made its mark in the field marine electronics. Today, it is the leading supplier of comprehensive service solutions for marine navigation, communication and automation control systems. EDGE – From Maritronics provides integrated monitoring and control systems that are devised using the finest products in marine industry. In keeping with the Maritronics tradition of ensuring 100% customer satisfaction, the products offered under EDGE are completely customizable to suit your unique needs. From alarm monitoring systems to customized switchboards, EDGE aims to provide customized marine automation solutions. Edge also offers additional features that prove to be useful in saving time, money and efforts in today's technology driven world. If customized solutions are not your requirement, EDGE designs and develops off-the-shelf solutions that are fast becoming an integral part of marine operations.

What makes us different.

- 24/7 Support
- Prompt Response
- Factory Trained Engineers
- 96.7% resolution in the First Time Fix Ratio (FTFR)
- Large Inventory of genuine spare parts and products

SAILING TO NEW HORIZONS: OUR JOURNEY.

Maritronics, the flagship company of the reputed Centena Group, specialises in Comprehensive Marine Solutions in the sphere of Navigation, Communication, Automation, Calibration, Electrical and Electronics Systems.

Established in the year 1980 in Dubai, Maritronics is an ISO 9001:2008, ISO 14001:2004 and OHSAS 18001:2007 certified company, that provides services in multiple ports from Suez Canal, Middle East, the Indian Subcontinent, Sri Lanka and Singapore.

With a top-notch IT infrastructure for ERP & CRM and a strong logistics support, Maritronics has been recognised for its excellence in the field of Maritime support. Apart from that, Maritronics has a bright and efficient team of competent factory trained engineers that provides a reliable service round-the-clock. This quality of service has also enabled the company to win multiple accolades including prestigious awards from JRC Japan for the Best Service Company over the consecutive years since 2011.

Services on board

- Engineering, Installation, Commissioning and maintenance services for Marine Navigation, Communication & Automation products
- Fleet maintenance contracts
- System integration
- Consultancy - Retrofit and New Building projects
- Statutory surveys
- Accredited Testing & Calibration Services

What's on our radar.

Navigation & Communication

- Gyro compass & Steering systems
- Radar & ECDIS systems
- DGPS & Chart plotter systems
- Echo Sounder & Sonar systems
- Doppler & Electro magnetic speed logs
- GMDSS & satellite communication systems
- On-board communication systems
- Integrated Bridge systems (IBS)
- On-board Networking and High speed data communication
- Automatic Identification system (AIS)
- Voyage data recorder (VDR)
- Statutory Inspections on behalf of classification societies
- ECDIS type specific training

Taking the load off the shoulder.

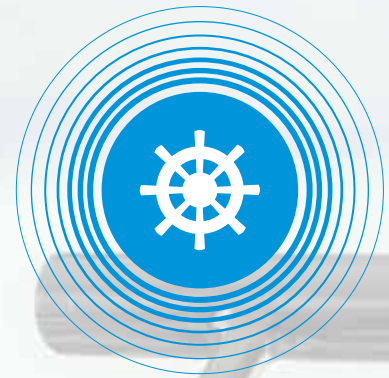

Automation

- Propulsion control systems
- Shaft generators
- Joy stick control systems
- Engine performance monitoring systems
- Power generation and control systems
- Alarm Monitoring and control system
- Gas Detection systems
- Cargo tank level gauging and control systems
- Fire Alarm & Fire Fighting systems
- CCTV systems

Float in a sea of entertainment.

On-board Entertainment & High Speed Internet Connectivity

- Marine, stabilized TV antennas
- Terrestrial broadcast receivers
- Music distribution systems
- Internet connection using VSAT technology
- On-board IT networking

Calibrating safety

Calibration

- Authorized service agents for TankSystem SA
- Factory trained and experienced service personnel
- Calibration of Pressure, Temperature, Gas Detection System and Electrical equipment
- Time bound solutions with competitive pricing
- On-board calibration services
- Multimeter, Clamp meter, Scope meter, Frequency meter, Miro ohm meter
- Resistance box
- Analog and digital thermometer
- Oxygen monitor/analyser
- Breath alcohol tester

Whom do we work with.

- Shipyards
- Fleet Owners
- Oil Field / Offshore operators
- Leisure Boat Builders
- Navy & Coast Guard
- Classification Societies
- Consultants

Authorised Agents for

Radio Survey And VDR Approvals From Classification Societies:
